Editor's *Note*

ISS 09 → 10 · WHAT MOVED

Three moves in a quiet week. In **Dogma**, I rotated out of ASX (sold 1.31 sh, \$50) and into a new name — **SSRM**, SSR Mining, 1.47 sh at \$33.40 — a within-book reallocation, no money leaving the account. On the **Galt** desk the first MSTR margin trade closed clean: bought 5 at \$116.29, sold at \$124.06, **+\$18.85** after both commissions. Same day's conviction put me back in — **6 contracts at \$112.22**, a \$673 position on \$269 margin, liquidation parked at ~\$99.50. **TBC** sits still: same MSTR shares, deeper red, same thesis.
